

Press release

BLG and EUROGATE at Breakbulk Europe in Bremen

Bremen, May 28, 2018 – The gates to Breakbulk Europe will be thrown open this Tuesday. The largest trade fair for project, breakbulk and High & Heavy cargo is for the first time being held in Bremen from May 29 to 31. BLG LOGISTICS and EUROGATE will be exhibiting in Hall 5 at Booth 1129, at the joint booth of bremenports.

“Breakbulk Europe is the leading trade fair of the industry. That is why we are even more pleased that it will be taking place in Bremen this and next year. The Neustädter Hafen port is Europe’s largest terminal for general and heavy cargo. Last year, BLG processed 1.38 million tons of cargo there. That is almost as much High & Heavy and general cargo as we handled last year at our AutoTerminal in Bremerhaven,” Sven Riekers, Sales Director of the breakbulk and High & Heavy segments at BLG, pointed out.

In Bremen and Bremerhaven, BLG LOGISTICS operates highly productive terminals for breakbulk and High & Heavy cargo. Liners connect the terminals with over 200 ports worldwide. The EUROGATE Container Terminal Bremerhaven operates a container freight station directly on site at the terminal. In addition to stuffing and stripping cargo for transport overseas as well as the storage of various goods, EUROGATE handles the complete range of services for breakbulk processing. It also offers holistic logistics services for the onshore and offshore wind industry and has the lots, wharves, high-performance equipment and experienced staff needed for this. The terminals have been designed to meet the requirements of container processing and can store and transport heavy-duty components with weights over 1,000 tons.

In response to popular demand from exhibitors, Breakbulk Europe will again be held at the Bremen exhibition center in 2019. For more information on Breakbulk Europe 2018, see <https://www.blg-logistics.com/en/breakbulk-bremen-2018>.

About EUROGATE:

EUROGATE is the leading, shipping line independent container terminal operator Group in Europe. Jointly with the Italian terminal operator Contship Italia, the company operates a network of thirteen container terminals at twelve locations from the North Sea coast to the Mediterranean area. Commencing 29 January 2017, the EUROGATE Container Terminal Limassol, Cyprus, will be added as the 14th terminal of the network. In addition to container handling services at seaports, EUROGATE offers intermodal transport and cargomodal services. EUROGATE was founded in 1999, and handled 14.4 million TEUs Europe-wide in 2017.
